

APEX is Seeking Project Geologists

APEX is currently seeking Project Geologists with 5-10 years of field experience to lead teams and run exploration program for a variety of field based mineral exploration projects in Canada, USA and International destinations.

APEX Geoscience is an international consulting company with offices in Canada, USA, and Australia. We provide a broad range of professional geological services to clients around the world working on a variety of commodities. Our North American team comprises over 100 geologists, geophysicists and geotechnologists.

Qualifications:

- 5-10 years mineral exploration field experience
- Experience in field project management and project planning
- Experience running sampling, and drilling programs (core and RC)
- Experience managing up to 10 employees an asset
- B.Sc. or higher in Geology / Earth Sciences from an accredited University;
- Physically fit and able to work in extreme weather conditions; extreme heat and cold; wet or humid
- Available to travel and work on flexible field schedules
- Able to work in a collaborative team setting with a positive and proactive attitude
- A valid Driver's License
- Eligibility for TN Visa or ability to work in the USA an asset.

Duties will be project dependent but may include a variety of responsibilities from drill rig supervision, exploration program planning, management and execution, QA/QC monitoring, data interpretation and reporting.

Salary will be commensurate with Experience.
