

APEX Geoscience is an international consulting company with offices in Perth, Australia, and Edmonton and Vancouver, Canada. We provide professional geological services for clients around the world working on most commodities in politically stable jurisdictions. Our international team currently comprises more than 100 geologists, geophysicists and geotechnologists ranging from 0-30 years of mineral exploration experience. Our services include project management (grassroots to feasibility), property assessment, resource estimation, project generation, prospecting and various media sampling, mapping, desktop and GIS studies, ground geophysical surveying and processing, airborne geophysics processing and interpretation, and report writing including to JORC and NI 43-101 standards.

APEX Geoscience Australia Pty Ltd is currently seeking a highly motivated geologist with **>10 years** of experience for primarily field-based mineral exploration projects (FIFO out of Perth). This exciting opportunity with a consulting company will allow the successful candidate to experience a wide range of projects, commodities and locations expanding their geological knowledge base. One position is available with a mid-June commencement.

Anticipated duties will include:

- RC logging
- Drill rig supervision
- Brownfields drill out
- Geological mapping

The successful candidate must have:

- Residency or similar status to work in Australia (based in Perth or surrounding areas)
- A degree in Geology
- Lithium, Coal, Manganese, Copper/Lead/Zinc, Uranium experience
- 10 years of relevant field work experience and/or demonstrable field skills
- Experience with a variety of drilling methods (e.g. diamond and RC)
- Ability and willingness to do FIFO out of Perth on a 1 week on, 1 week off rotation in a remote setting
- Hold a valid Australian manual C class drivers license
- Ability to pass a Nation police clearance
- Ability to pass a drug and alcohol pre-employment and medical test
- Strong communication and personal skills
- International experience is an asset

The remuneration package will be AUD\$90,000 to \$100,000. Only successful applicants will be contacted.
