

APEX is Hiring Graduate and Student Geologists and Geo-technologists

Are you looking to gain field experience, travel to remote locations, learn from experienced geoscientists, work with a fantastic team?

APEX is currently seeking graduate and student geologists and geo-technologists for summer employment on a variety of office and field based mineral exploration projects within Canada and potentially abroad.

APEX Geoscience Ltd. is an international consulting company with offices in Canada, USA, and Australia. We provide a broad range of professional geological services to clients around the world working on a variety of commodities. Our North American team comprises over 100 geologists, geophysicists and geotechnologists.

Qualifications:

- Currently enrolled in or graduated with a B.Sc. in Geology / Earth Sciences from an accredited University or Geotechnical program
- Physically fit and able to work long hours in extreme weather conditions; extreme heat and cold; wet or humid
- Available to travel and work on flexible field schedules, day and night shifts
- Able to work in a collaborative team setting with a positive and proactive attitude
- GIS skills an asset
- A valid Driver's License;

Duties will be project dependent but may include a variety of responsibilities from core logging and geoteching to geological mapping and prospecting to sampling or geophysical surveying and reporting.

Salary will be commensurate with Experience.
